

PIPE SHIPPING REPORT FORM

17.1 General. The Pipe Shipping Report Form (See [GS-17 Form 1](#) for reporting to the Central Office or [GS-17 Form 2](#) for reporting to a District Office) will be used by the manufacturer to inform District or Headquarters Materials, which ever is responsible for inspection of the plant making the shipment, of each shipment of all pipe and pipe material found in Specifications Sections 1020, 1021, 1022, 1026, 1027, 1028 and 1047.

17.2 SiteManager sample ID's will be assigned to pipe and pipe material as described in the applicable Specification section.

17.3 Responsibility. The responsibility of sample ID assignment, sampling, testing, and Quality Assurance inspection shall be as described in the applicable Specification section.

17.4 Example Forms. Instructions for providing information required by each field of the Pipe Shipping Report Form are provided in [GS-17 Form 3](#). Examples of completed Pipe Shipping Report Forms are provided in [GS-17 Form 4](#) and [GS-17 Form 5](#).
